Project Management Professional - PMP®

PMP Certification®

The Project Management Professional (PMP®) credential is one of most important industry-recognized certification for project managers. Globally recognized and demanded, the PMP® demonstrates that you have the experience, education and competency to lead and direct projects.

This recognition is seen through increased marketability to employers and higher salary expectations; according to the PMI® Project Management Salary Survey Seventh Edition, certification positively impacts project manager salaries.

Benefits

The PMP® certification is renowned throughout the world. Part of that marketability comes from the prestige of PMI™ certifications; achieving the globally recognised Project Management Professional certification will provide evidence of an individual is knowledge, experience and ability to successfully manage a project.

- When you earn the PMP® certification, you show peers, supervisors and clients your commitment to profession, PMI's code of ethics and your ability to perform the function of a project management practitioner to certain level.
- PMP® certification recognizes your knowledge, skills and abilities.
- PMP® reflects achievement.
- PMP® can lead to greater earnings.

- PMP® can lead to career opportunities and advancement.
- PMP® prepares you for greater job responsibilities.
- PMP® improves skills and knowledge.
- PMP® builds self confidence. With the PMP® certification, you define yourself beyond a job title while gaining a sense of personal satisfaction.
- PMP® allows for greater recognition from peers.
- PMP® enhances the profession.

Target Audience

The PMP® certification recognizes demonstrated competence in leading and directing project teams. If you are an experienced project manager looking to solidify your skills, stand out to employers and maximize your earning potential, the PMP® credential is the right choice for you.

PMP® Certification Requirements

To apply for the PMP, you need to have either:

- A secondary degree (high school diploma, associate's degree, or the global equivalent) with at least five years of project management experience, with 7,500 hours leading and directing projects and 35 hours of project management education.

or

- A four-year degree (bachelor's degree or the global equivalent) and at least three years of project management experience, with 4,500 hours leading and directing projects and 35 hours of project management education.

Why e-learning

Technological improvements and advances in educational design mean that e-learning is no longer just a low cost alternative to traditional training methods. In many respects our courseware offers training which is superior to the majority of available "classroom" options. Not only is the effectiveness of the training process enhanced, but also the convenience and overall cost efficiency of e-learning makes it a compelling option for training. Training can be targeted at specific individual requirements and staff learn exactly what they need, any time, any place. Staff also learn at their own pace and can repeat each section as many times as they need during the course and as a refresher.

What's included?

- The PMP® complete e-learning course
- Randomised PMP® exam simulator
- PMP® process model
- PMP® handbook
- Full tutor support via email while you study
